Education

Jaypee University of Information and Technology

2021 – 2025

Bachelor of Technology in Computer Science — **CGPA: 7.8/10**

Solan, India

- **Relevant Coursework:** AI, Machine Learning, Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networks

Experience

Outlier AI

Jun 2025 – Dec 2025

Junior Software Developer

Remote

- Contributed to prominent Outlier Projects like Andromeda and Sturgeon involving software problem-solving, algorithmic reasoning, and code quality assessment across diverse technical scenarios.
- Designed, analyzed, and validated solutions for complex programming tasks, emphasizing correctness, efficiency, and maintainability.
- Worked extensively with debugging, edge-case analysis, and systematic evaluation of code implementations to improve solution reliability.

Projects

ResumeAI – Intelligent Resume Builder | [GitHub](#)  | [Live](#) 

- Built a full-stack resume platform featuring real-time editing, live preview rendering, and responsive interfaces across desktop and mobile devices.
- Implemented reusable React components and ATS analysis workflows evaluating **200+ resume parameters** to generate actionable optimization insights.
- Integrated AI-powered recommendations and optimized user workflows, reducing resume iteration time by approximately **50%**.

StockSense – Real-Time Market Analytics Platform | [GitHub](#)  | [Live](#) 

- Developed a full-stack analytics platform delivering real-time insights and market visualization for **1000+ Indian stocks**.
- Built responsive dashboards featuring dynamic charts, watchlists, and live market indices using reusable component architecture.
- Integrated external APIs and forecasting workflows achieving approximately **65% prediction accuracy** in historical backtesting scenarios.

Personal Portfolio Website | [GitHub](#)  | [Live](#) 

- Designed and developed a responsive portfolio application using React.js and Tailwind CSS to showcase projects, technical skills, and professional experience.
- Implemented reusable UI components, smooth navigation, and optimized performance to deliver a seamless cross-device experience.

Technical Skills

Programming Languages: JavaScript (ES6+), TypeScript, C++, Python

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Redux Toolkit

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, PostgreSQL

Developer Tools: Git, GitHub, Linux, Docker, Postman, AWS, CI/CD

AI/ML: Machine Learning, Scikit-learn, Pandas, NumPy, NLP, Generative AI, LLMs, RAG, Embeddings, Vector Search, Prompt Engineering, AI APIs

Certifications

Python for Development | IBM

Generative AI in Software Development | Amazon

Software Engineering Virtual Experience Program | Goldman Sachs
